## Photosynthesis Homework #1

Answer the following questions. Be specific. Be scientific.

1. Explain how **producers** and **photosynthesis** related.

2. What “raw materials” does photosynthesis need, and where do they come from?

3. What is the reason an organism would do photosynthesis?

4. What “waste product” is made at the end of photosynthesis and what does the organism do with it?

5. People cannot do photosynthesis. Why not?
