

Lever Lab

Lab Partners:

Date:

Lever 1: (fulcrum at 50cm)

weight on left	100 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	200 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	500 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

Lever 2: (fulcrum at 45cm)

weight on left	100 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	200 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	500 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

Lever 3: (fulcrum at 40cm)

weight on left	100 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	200 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

weight on left	500 g
distance from center	10 cm
weight on right	100 g
distance from center	 cm

What have you noticed is happening differently?
